Thank you for your support of Dana-Farber Cancer Institute this past year through our President's Circle. Your ongoing commitment has helped the Institute accelerate the pace of discovery in the fight against cancer. I am pleased to let you know that your generosity helped the President's Circle raise more than **\$5.5 million**, providing Dana-Farber with steady, flexible funding to apply when and where it is needed most.

As a member of the Circle of Hope, your support is a source of encouragement for our patients and is critical to Dana-Farber's physician-scientists as they enhance patient care services and cutting-edge research initiatives.

The following examples are just some of the ways that your President's Circle support has improved our signature total patient care.

- You helped the Institute secure sophisticated equipment, which allows our researchers to collect and analyze data from large numbers of genes and proteins more effectively.
- You enabled Dana-Farber's Center for Clinical and Translational Research to increase the number of clinical trials that bring effective, new, and targeted therapies to patients as quickly as possible.
- You provided much needed support to investigators who require additional funding to continue their work to conquer this disease.

You make a difference in the life of the Institute and in the lives of our patients and families. On behalf of the Dana-Farber family, I thank you for all that you have done—and continue to do—to advance our lifesaving mission.

Sincerely,

Edward J. Benz Jr., MD
